### STATEMENT ON MARILYN MOSBY GUILTY VERDICT

**BALTIMORE. February 6, 2024.**

Yet another city politician convicted of a crime of greed is a dark day for Baltimore and no cause for celebration. Truth is, Marilyn Mosby follows in an embarrassing tradition set by former Mayors and other public officials who have operated as though they are above the law. We know Baltimore has better stories than this to tell to the world.

Let no one forget Ms. Mosby is a mother and daughter, and even those who disagree with her, indeed even those of us who have run against her, should find no joy in her fall. Justice has been done. May she and her children now have the same respect and privacy we would seek as they process and prepare for what comes next and as they find comfort in the promise of redemption and grace.
